ABOUT CONFERENCE

- SAENIS TTTMS (Think Tank for Thermal Management Systems) Conference is the annual flagship event of SAE Northern India Section, organized in collaboration with SAE International.
- It serves as a premier platform bringing together industry leaders, policymakers, academia, and innovators.
- The conference focuses on contemporary challenges, latest technological trends, and advancements in automotive thermal management systems.
- Recognized as one of the most unique and sought-after conferences in India dedicated to thermal management systems.
- Aligned with the global conference on Automotive Thermal Management Systems, ensuring global relevance.
- TTTMS 2026 will be the ninth edition of this prestigious conference.

THEME: EMERGING THERMAL TECHNOLOGIES

- India is among the world's Top 3 automobile markets, with 28.3 million vehicles sold and 6.6 million vehicles exported in FY2025–26, reinforcing its position as a global automotive manufacturing hub.
- The automotive sector contributes ~7% of India's GDP, supports ~30 million jobs, and remains a key driver of industrial growth and exports.
- Government initiatives, including the ₹25,938 crore Production Linked Incentive (PLI) Scheme, are accelerating investments in EVs, hydrogen mobility, and advanced automotive technologies.
- The rapid adoption of Electric Vehicles, Software-Defined Vehicles (SDVs), and Advanced Driver Assistance Systems (ADAS) is significantly increasing the demand for next-generation thermal management solutions.
- Emerging thermal technologies—including heat pumps, integrated thermal management systems (iTMS), battery liquid cooling, AI-driven thermal control, and lightweight heat exchangers—are becoming critical for improving vehicle efficiency, safety, range, and passenger comfort.
- Thermal Management is evolving into a strategic technology, playing a pivotal role in enabling the future of sustainable, connected, and intelligent mobility.

EVENT AT A GLANCE

Dates	December 3	December 4	December 5
Inauguration on 3rd December, 2026 by Our Esteemed Chief Guest & Guest of Honour			
Morning Session	• Theme Presentation: **Invited Speakers (Emerging Thermal Technologies)** • Technical Paper Presentations	• **Panel Discussion:** Emerging Challenges & Awareness Session on ‘Phasing out Hydrofluorocarbons Under Kigali Amendment to the Montreal Protocol: **Invited Speakers** • Technical Paper Presentations	• Session for Students • Technical Paper Presentations
Afternoon Session	• **Panel Discussion:** Corporate Average Fuel Economy (Impact on Vehicles Thermal Management Systems)- Challenges & Opportunities: **Invited Speakers** • Technical Paper Presentations	• Panel Discussion: Sustainable Mobility Solutions for India - Future Roadmap: **Invited Speakers** • Technical Paper Presentations	• Session for Students • Technical Paper Presentations
Valedictory on 5th December, 2026 (Best Paper & Best Presentation Awards along with Sponsor’s Felicitation)			

TECHNICAL SESSIONS

Vehicle Climate Control & Automotive Power-Train Cooling	Vehicle Underhood Thermal Management	Control Units for Thermal Management Systems	Human Comfort Including Thermal Comfort & Cabin Air Quality	Alternative Refrigerants
Thermal Systems for Electric, Hybrid, Hydrogen Fuel Cell & Hydrigen ICE Vehicles	Thermal System & Components	Thermal Systems for Heavy & Off-road Vehicles	Waste Heat Recovery & Regulatory Topics	Thermal Simulation/Analysis/ Modeling

Note:

1. Selected technical papers will be published through My Tech Zone, SAE International.
2. The selected papers will be presented at 9th SAENIS TTTMS International Conference - 2026

WHO SHOULD ATTEND?

01 CEOs, VPs and Senior Managers at OEMs

02 Group Product Directors for Hybrid and Electric Systems

03 Chief Engineers – BEVs

04 Govt. Authorities, Policy Makers & Govt. Research Associates

05 Heads of Vehicle Architecture

06 Lead Engineers, Electrified Powertrains

07 Technical and Innovation Managers

08 Head of Research, Materials and Manufacturing

09 Chief Scientists – Energy and Systems

10 Heads of Charging Infrastructure

11 Project Leads – Electrification

12 R&D Engineers – Thermal Management

13 Technical Leads – Energy Storage and Systems

14 Engineering Students, Faculty Members, Academic Researchers & Scholars

15 Refrigerant Manufactures and Service Providers

Organizer

SAE India Northern Section (NIS), is one of the five sections of Society of Automotive Engineers India for promoting membership from industries, institutions and technical colleges and for organizing activities related to mobility engineering in the Northern India Region. The society organizes technical lectures, expositions, training programs, visit to industrial facilities, scholarships, and awards for student members.

SAEINDIA NORTHERN SECTION

SAEINDIA is a premier professional society that serves the mobility engineering community engaged in the design, manufacturing and service of self-propelled vehicles and systems that move in and, air, space and sea. It has 4,000+ professional members and 40,000 student members. SAEINDIA is the largest strategic alliance partner of SAE International.

SAEINDIA Society of Automotive Engineers INDIA

SAE International is a global association of more than 1,28,000 engineers and related technical experts from over 100 countries representing aerospace, automotive and commercial vehicle industries, committed to advancing mobility knowledge and solutions for the benefit of humanity.
